

ILRW WATER RATE INFORMATION

- On an annual basis, the Board of Directors of Iowa Lakes Regional Water reviews the rate schedule and, if necessary, makes adjustments.
- The rate schedule is set up to help pay for the debt service on projects, as well as for operation and maintenance costs of the system. Every user has at least a minimum payment that is due each month for these reasons.
- The monthly minimum payment is \$36.50 plus tax and covers no water usage up to and including 2,000 gallons of water usage. After the 2,000 gallons, there is a declining rate schedule for each additional 1,000 gallons of water used.
- ILRW measures water usage in 1,000 gallon increments.
- A sample rate schedule for customers using water for home/ domestic use is shown to the right.
